*June 2nd, 2020 - this article evaluates the strengths and limitations of field experimentation it first defines field experimentation and describes the many forms that field experiments take it also interprets the growth and development of field experimentation it then discusses why experiments are valuable for causal inference the assumptions of experimental and nonexperimental inference are distinguished*

---

---

## 'about natural experiments natural experiments in

May 7th, 2020 - natural experiments are characterized by the presence of a naturally occurring event e.g. new law, natural disaster, economic crisis that intervenes in an environment e.g. dunning 2008 and assigns subjects e.g. people, panies into a treatment group and a control group. researchers can then pare the treatment group with the control group with regard to an oute variable." **natural experiments of history book 2010 worldcat**
