## **'Jacqui Cole Wikipedia**

November 24th, 2019 - She remained there for her graduate studies earning a PhD in 1997 Her thesis Structural studies of organic and organometallic compounds using x ray and neutron techniques described the structure property relationships of non linear optical materials including studies of transition metal complexes She was supervised by Judith Howard'

## **'Structure sensitive properties of KTP type crystals**

December 16th, 2019 - As a result of these structural changes the KTP type crystals often exhibit different physical properties which may be referred to as structure sensitive properties It is possible to fine tune the nonlinear optical properties of KTP crystals through doping This results in a broad range of applications for KTP type crystals'
